NEST 1

A two-storey haven with intimate luxury and total privacy. It features a spa bath and outdoor hot tub, open plan living, large windows framing views of the landscape and a unique rotating sofa for relaxing by the fire or soaking in the scenery. Ideal for a couple's stay or small group wanting a secluded experience.

NEST II

The largest and most versatile of the main nests. Designed with a striking open plan and glass-rich layout, it sleeps up to six across three themed bedrooms (African, Asian, Mountain), and has multiple spa baths (including outdoor lakeside), fireplaces, gourmet kitchen, and a reading loft. Great for couples wanting extra space, or small groups and families.

NEST III

A blend of rustic charm and luxury, often described like a farmhouse “finca.” It comfortably accommodates up to four guests, has a large stone fireplace, deck with valley views, outdoor spa and hammocks, and cosy, characterful interiors. This one feels warm and homely while still being elevated.
